

Sidekick

Introducing the new MANGER Sidekick - the first in a series of new loudspeakers designed for home theatre and audiophile enjoyment.

The Sidekick is a small on-wall speaker that can blend beautifully with interior surroundings due to its smartly tailored appearance. But being small doesn't mean sounding small, too. The mighty little Sidekick is quite capable of delivering every note, every beat and nuance of sound originally recorded... just as the film creators intended.

And when not watching a movie or something special on television, the new Sidekick offers musical reproduction that will satisfy even the most demanding audiophile.

With the flexibility of a home-theatre system, and an amazing frequency response of 110 Hz to 25 kHz, the Sidekick reproduces music in all its pure and natural glory, delivering every note, every beat and nuance of the music... just as the composers intended.

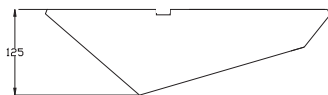

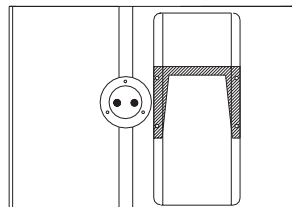

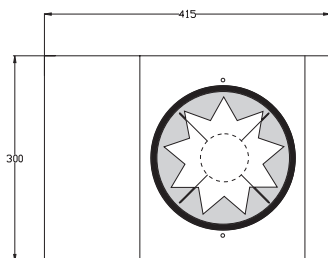

Contributing to the Sidekick's awesome performance, too, is the wall, itself, which acts as a superb supporting boundary layer, ensuring that sound propagation is virtually undisturbed. Audiophiles and home-theatre enthusiasts, alike, will enjoy the thrilling realism and uncanny musicality of the new Sidekick.

When considering speakers for 2-channel stereo or as rear/side channel speakers in a 5.1 or 7.1 home theatre system, the new Sidekick is the perfect choice. Pure and simple...

Mit freundlicher Genehmigung, Dr. Michael Thomas

Specifications

Driver

MANGER Sound Transducer (MSW) W05 1,2.2.16
Impedance 8 Ohm

Subwoofer

Optional: The Manger subwoofer expands the lower frequency range of the SIDEKICK down to 20 Hz.
For further information ask for the data sheet.

Crossover

High-pass 1st order filter, Mcap + Mcap Supreme capacitors
Recommended subwoofer crossover frequency: ~ 100 Hz

Frequency Response

Extreme linear from 100 Hz to 25 kHz (- 3dB), 40 kHz (- 10 dB) through the boundary layer matching.

Cabinet

Polygonal housing, 7°, for optimum spatial listening throughout the room
Dimensions: 30 x 41,5 x 12,5 cm (H,W,D)
Weight: 8 kg
Finish: all RAL colours, satin, Piano High Gloss black

Wall Mounting

Complete kit including drilling template for on-wall mounting.
Cable drain for speaker cable connection both from top or bottom if cable is surface mounted, or hidden connection.
